

### PREDICTIVE ONCOLOGY

Predictive Oncology (NASDAQ: POAI) is focused on the use of data and artificial intelligence (AI) to develop personalized cancer therapies, which can lead to more effective treatments and improved patient outcome. The company has several tools that support its mission of bringing precision medicine to the diagnosis of cancer.

Using these resources, and in collaboration with key players in the pharmaceutical, diagnostic and biotech industries Predictive Oncology is working to determine the best pathways for more individualized and effective cancer treatment.
