

**VEEV GROUP, INC.**

We're reinventing the way homes are built and experienced, progressing together toward a solution to the housing crisis that's impacting the planet and humanity today. Veev integrates intelligence into every wall using advanced materials and offering many smart devices and sensors that enable complete home control.

Traditional walls consist of too many unhealthy and environmentally irresponsible materials, too many layers and stages of construction and too many parties involved in production and installation. We are changing that.
