

Rubicon Technologies, Inc.

Rubicon Professional Services provides an innovative alternative for constructing or upgrading data centers, telecom sites, and other critical facilities. Representing the owner's interests, they develop strategy, assemble custom teams of top-rated designers, subcontractors, and equipment vendors, and then expertly manage the entire process. From feasibility studies and site selection through planning, equipment integration, construction, and commissioning, Rubicon ensures precise, cost-effective delivery of the infrastructure their clients need.
