Eyelation Technologies

Eyelation was founded in 2009 by Brad Kirschner, to simplify how prescription safety eyewear was procured for industries. After developing and taking the program to market, it was evident that the problem of managing benefits for safety products extended well beyond just eyewear. Today Eyelation currently manages benefits for more than 500,000 workers across 1,500 sites across multiple industries. With over 800 self-serve kiosks onsite and 1.1M benefits managed.
