BPM Technology Solutions

**CUSTOMER PROFILE**

# Industry: Services

## US-WDS

The U.S. Web Design System (USWDS) is a comprehensive design framework developed to help federal agencies build accessible, mobile-friendly, and consistent websites.

**HQ:** Pleasanton, CA **Founded:** 2015 **Employees:** N/A

**Existing ERP:** Sage

**Other systems:** QuickBooks, Surefire ISS Systems, ProLiant, Regions

**Customer Challenges:** Financial Consolidation

**Deal Competitors:** N/A

**Why we Won:** Not competing with anyone. We won because we were offering May discounts and offered them a phased approach

**Caravel teams:**

Erica Kyriakides, Rob Cupka

## NetSuite Implementation

**NetSuite sales**

**team:** Michelle Eichenberg, Matthew McGuire

**NetSuite:** Financials First

**Methodology:** SuiteSuccess + Optimization

**Modules:** Record to Report, Procure to Pay, Order to Cash

**Interfaces:** Operations, Banking

**Approach:** US-WDS will deploy netsuite in a multi-phase with core functionality going live in month 4. As additional subsidiaries are acquired they will be onboarded in future phases.
